**PAST CASE**

## W HOTEL

The W Hotel in Xi'an is located in the Qujiang New District. As an important part of the Qujiang landscape, it features a post-modern design style, which contrasts sharply with the thousand-year-old historical charm and yet complements each other, paying tribute to the inclusive and harmonious Chinese civilization that has been nurtured since the Tang Dynasty.

## Shenzhen Talent Park

The public art exhibition at the Talent Park was well attended. The works featured a wide variety of forms and themes, including sculptures, installations, contemporary transformations of traditional culture, personalized presentations with surrealistic fantasies, purely formalistic aesthetic expressions, and realistic depictions of real life. All the sculptures were installed by Ty ART.

## Zhangjiakou Hyatt Hotel

Combining the long-standing local culture with the hotel's philosophy, a visual experience that is both classic and individualistic has been created.
